

How to Use

AmLactin®
MOISTURIZING BODY LOTION

AmLactin® Moisturizing Body Lotion Description

AmLactin® Moisturizing Body Lotion is a special formulation of 12% lactic acid neutralized with ammonium hydroxide to provide a lotion pH of 4.5-5.5. Lactic acid, an alpha-hydroxy acid, is a naturally occurring humectant for the skin. AmLactin® Moisturizing Body Lotion moisturizes, exfoliates and softens rough, dry skin.

Directions

Remove seal under cap prior to first use. For best results, apply to dry skin twice a day.

Caution

For external use only. Keep this product out of the reach of children. Avoid contact with eyes, lips and mucous membranes. A mild irritation or rash may occur on sensitive skin with initial use. May cause transient stinging when applied to skin with fissures or abrasions. Irritation may occur when used on the face. If irritation or rash continues, discontinue use and consult a physician. Avoid unnecessary sun exposure and use a sunscreen.

Ingredients

Water, lactic acid neutralized with ammonium hydroxide, light mineral oil, glyceryl stearate, PEG-100 stearate, propylene glycol, glycerin, magnesium aluminum silicate, laureth-4, polyoxyl 40 stearate, cetyl alcohol, methylparaben, propylparaben and methylcellulose.

Store at 20-25°C (68-77°F). Avoid excessive heat.
